#### COURSE DESCRIPTION:

An introduction to the theory and application of two dimensional design as it applies to the creation of pictorial space. Students will be guided through a series of weekly projects in visual expression, introducing them to the formal elements of design: line, shape, value, color, and space and the principles of organization: harmony, variety, balance, proportion, scale, dominance, movement, and economy in a variety of concepts, mediums, and techniques.

#### TEXT:

A text will not be required. I will bring a variety of texts to class, which may be used during class or signed out by students for longer periods of time.

#### **CRITIQUES:**

At the end of each project there will be a major critique during which each student's project solution will be pinned to the studio wall as a group. The instructor leads, with full student involvement, a discussion in which the work of each student is assessed in terms of: meeting the projects objectives (technically, formally, and conceptually), originality and creativity, degree of involvement, problem solving ability, craftsmanship, and presentation. Learning to analyze one's own work and the work of others is as important a skill as making the work. There will also be many individual and small group preliminary critiques.

#### **GRADING:**

Each project must be successfully completed in order to receive credit for the course. Final grades will be based on: work done both in and out of class, meeting the projects objectives, level of achievement, creativity and imagination, craftsmanship, and presentation. Class participation and attendance are considerations when assigning grades. How well you prepare for class, work during class, and participate in critiques and discussions will influence your grade.

#### ATTENDANCE:

All students must attend all classes and required lectures. Poor attendance and or consistent tardiness could negatively impact a project's grade, and by extension

your overall course grade. Class participation and attendance are major considerations when assigning grades for projects and final grades. How well you prepare for class, work during class time, and participate in critiques and discussions will influence your final grade. Work that is late due to illness, or other emergencies, will not be penalized. A doctor's excuse, notification by the health center, or some other form of written notification (an e-mail) is necessary for all absences. Without some form of written excuse you will receive an unexcused absence. Students are responsible for assignments given on a day when they are not in class. All missed work must be made up within a reasonable amount of time.

## **LECTURES and TRIPS:**

During the course of the semester you will be required to attend an on-campus art event and one off-campus (generally a bus trip to NYC to visit museums and galleries) art event and write a short (150-300 word) paper on each of these events in addition to your design requirement. Each paper is generally due one week after the date of the event. Types of events include Gallery Openings, Forums and Bus Trips. Gallery Openings are public events which occur at some point during the course of each Gallery Exhibition. These generally include a short talk by the artist being shown or the curator of the exhibit. Forums may feature slide talks by art department faculty, visiting artists, art historians, critics, and/or art professionals such as conservators, illustrators, and art editors. The Bus Trip is usually to New York City, where we might start the day viewing classic works at the Metropolitan Museum of Art and finish by experiencing cutting edge work made yesterday and exhibited in Chelsea.

Date for Bus Trip to NYC: Friday, November 3
