

Lecture Syllabus

(subject to revision)

<u>DATE</u>	<u>CLASS</u>	<u>TOPIC</u>	<u>Readings in Science K-8</u>	<u>Readings in TSTC</u>
Aug. 27	1	Introduction	2-16 (skim)	
29	2	Beginnings of Science	(Science Unlimited 1-43)	
31	3	Emergence of Science	7-44 (skim)	
5	4	Atomic Theory	418-429	43-52
7	5	Atoms and Molecules	429-437	52-58
10	6	Chemical Bonding		58-68
12	7	Heat and Temperature I	456-460	69-83
14	8	Demonstration 1		
17	9	Heat and Temperature II	460-475	83-91
19	10	Static Electricity I	503-508	102-112
21	11	Learning Center – Set Up		
24	12	Learning Center -Critique		
26	13	Static Electricity II		
28	14	Demonstration 2		
Oct. 1	15	Test 1* (Classes 1-14)		
3	16	Current Electricity I	508-515	112-128
5	17	Current Electricity II	515-523	
10	18	Current Electricity III		
12	19	Demonstration 3		
15	20	Magnetism I	499-503	92-101
17	21	Magnetism II	516-523	
19	22	Waves I	476-479	
22	23	Waves II	480-485	129-149
24	24	Waves III	486-490	150-169
26	25	Demonstration 4		
29	26	Waves IV	490-498	169-177
31	27	Mechanics I	438-450	178-186
Nov. 2	28	Demonstration 5		
5	29	Test 2 * (classes 16-28)		
7	30	Mechanics II	450-455	186-193
9	31	Mechanics III		
12	32	Mechanics IV		193-200
14	33	Weather I	212-220	201-215
16	34	Demonstration 6		
19	35	Weather II	241-288	227-247
26	36	Planet Earth	205-212	
28	37	Plate Tectonics I		282-295
30	38	Demonstration 7		
Dec. 3	39	Plate Tectonics II	220-240	295-301
5	40	Flight and Space Travel		215-226
7	41	Planets and Stars	174-204	248-281
10	42	Science and Science Teaching	Read Entire SW (on reserve)	

* Copies of some previous tests are on reserve in the Library.

All Ed 228 students should enroll themselves in the EDUC 228 Blackboard site and in the Merrill TeacherPrep web site, www.prenhall.com/teacherprep.

Final exam is not comprehensive. It is given when scheduled by the Registrar.

Cell phones and beepers should be turned off in the classrooms.

Plagiarism: Matters of plagiarism in this course are governed by the definitions, policies, and procedures given on the appropriate pages of the latest edition of the *Moravian College Student Handbook*.

Dr. Joseph Gerencher, Office: 112, CHS, Phone: 610-861-1440, e-mail: gerencher@moravian.edu
Office Hours: MW F 11:00- 11:30; Tues. 1pm-3 pm; other times by appointment.

LABORATORY SYLLABUS
(subject to revision)

Date	Class	Topic	Assignment
Aug. 29 & 30	1	Principles of Science Teaching	TSTC xi-xiii; xiv-xv
Sept. 5 & 6	2	Exploratorium Workshop Approaches	TSTC 1-26 (skim)
12 & 13	3	Curriculum Projects: SAPA and ESS	SCIENCE 4-8 (read); 45-61 (skim)
19 & 20	4	Curriculum Projects: SCIS and InSights	SCIENCE 62-93 (skim)
26 & 27	5	Curriculum Projects: FOSS	SCIENCE 113-171 (skim)
Oct. 3 & 4	6	In-school 1	
10 & 11	7	Curriculum Supplements: AIMS	
17 & 18	8	In-school 2	
24 & 25	9	Piagetian Interview Population Connection and others	
Nov. 31 & 1	10	In-school 3	
7 & 8	11	Curriculum Supplements: various	
14 & 15	12	In-school 4	
28 & 29	13	In-school 5	
Dec. 5 & 6	14	Microcomputers in Science Ed. and Inquiry Science	SCIENCE 94-112 (skim); TSTC 27-42 (skim)

TEXTS: (SCIENCE) Science K-8: An Integrated Approach, 11th ed, Victor, Kellough and Tai, 2008
(TSTC) Teaching Science to Children: An integrated Approach, 6th ed., Friedl and Koontz, 2005
(SU) Science Unlimited-Pennsylvania's Resource Guide for Elementary Science

READINGS ON RESERVE: (CC) The Child's Conception of Physical Casuality, Jean Piaget
(SW) A Sense of Wonder, Rachel Carson
Learning Center Activities: Science K- 2, Deborah Candleora
Science Learning Centers for the Primary Grades, Poppe & Van Matre

ATTENDANCE POLICY:

Attendance will be taken in each class period. Unexcused absences in excess of four will reduce the final average of a student at a rate of one percentage point per absence. Students have the responsibility to present the evidence of the nature of an excused absence.

FINAL GRADE:	EXAM 1	15%
	EXAM 2	15%
	EXAM 3	15%
	Learning Center	10%
	Classroom Demonstration	10%
	Piagetian Interview	15%
	In-school experience grade	20%

COURSE OBJECTIVES: Students will successfully and safely do the following:

- demonstrate knowledge of the major principles of the physical, chemical, and Earth sciences.
- use the methodology of scientific inquiry with peers and children.
- use hands-on techniques to teach science concepts to peers and children.
- employ a range of techniques, approaches, and curricular materials that support science education.
- become familiar with a broad range of curricula, supplements, and software that promote science education.
- develop an understanding of the child's way of perceiving nature and his/her place within it.
