### **REQUIRED READING MATERIAL**

Babbie, Earl. *The Practice of Social Research*, 11<sup>th</sup> Edition. Wadsworth Publishing.  
2007.

Assorted handouts and websites

## course outcomes

Successful completion of this course should produce the following outcomes.

1. understanding of the basic scientific research process
2. competence in identifying components of a study and recognizing their relationships to one another
3. appreciation for the influences that previously conducted research and established theories have upon new research
4. familiarity with methods of sociological research and related issues, such as validity, reliability, and research ethics
5. skills to comprehend and assess research reports as well as to write summaries of new research

## EVALUATION

*exams are given in this course. They include objective and subjective questions that cover the basic concepts discussed in class and in assigned readings.*

*A research project must be completed by the students during the term. Three written summaries, due at designated times throughout the semester, should demonstrate the methodological processes involved in*

*Two non-cumulative*

*formulating and investigating a hypothesis. Specific information about the project appears in the "Semester Project Guidelines."*

*Students must also complete five written lab reports, each one to two pages in length. Lab sessions take place in class on scheduled dates (see course schedule). Each report is due at the beginning of the following class. These assignments help to fulfill the college's requirements for writing-intensive courses. Information about each lab will be presented as it becomes relevant.*

*Although attendance, itself, does not affect students' grades in this course, each student receives a class participation grade. IT IS NECESSARY TO ATTEND CLASS TO RECEIVE CLASS PARTICIPATION CREDIT. Contributions to class discussions and activities increase students' participation grades. Obvious inactivity (including sleeping), disruptions (including consistently arriving to class late), and lack of effort lowers the grade.*

*To determine a course grade, the preceding factors have been combined in the following each)*

<i>EXAMS</i>	<i>40% (20% each)</i>
<i>RESEARCH PROJECT</i>	<i>30% (10%</i>

manner.

WRITTEN LAB REPORTS 20% (4% each)  
CLASS PARTICIPATION 10%

Course grades follow the letter-grade system. Please consult the Moravian College Student Handbook for description of the requirements for attaining each grade. The numerical ranges used in assigning each letter grade in this course are as follows.

A	92%-100%	C	72%-77.9%
A-	90%-91.9%	C-	70%-71.9%
B+	88%-89.9%	D+	68%-69.9%
B	82%-87.9%	D	62%-67.9%
B-	80%-81.9%	D-	60%-61.9%
C+	78%-79.9%	F	0%-59.9%

## Policies

All standards listed in the college catalog that deal with attendance, withdrawal, cheating, plagiarism, and any other pertinent policies apply to this class.

Please make every possible effort to take exams and submit written assignments on the scheduled dates (see course schedule). All missed examinations are given at the end of the semester. Late papers and lab reports will be accepted with a five point penalty for each day that they are late (including weekends and holidays).

Attendance, itself, does not directly affect students' grades in this course. However, attendance is indirectly reflected in the class participation/activities grade. Class participation grades rely, in part, upon presence in class. Also, students may not make up class activities that take place during classes for which they are absent.

PLEASE NOTE: The Course Schedule on the following page provides an anticipated calendar of topics and assignments. Please be aware that this schedule is subject to change based upon the progression of the term.

# COURSE SCHEDULE

PLEASE NOTE: This Course Schedule provides an anticipated calendar of topics and assignments. Please be aware that this schedule is subject to change based upon the progression of the term.

assignment for this week	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
Buy the book Read pages 5-6, 8-12, 16-21, and 24-28	8/27	8/28 Introductions	8/29	8/30 Sociological Inquiry	8/31
Read Chapter 2 (beginning with page 43)	9/3 NO CLASS Labor Day 	9/4 Research Elements	9/5	9/6 LAB Research Elements	9/7
Read Chapter 4 Write lab report	9/10	9/11 The Research Plan	9/12	9/13 LAB The Research Plan	9/14
