Course Description

This course resists fragmentation of women's experiences of health into separate disciplines by simultaneously considering models of women's health and health care, with their socio-political implications. Recognizing differences of sexuality, class, race, age, and culture, students will gain foundational knowledge of women's health while considering the political and personal consequences of ideas, practices, and policies. Writing assignments build up to a final research paper in the student's particular area of interest.

Course Objectives

- Identify historical and contemporary frameworks that shape current beliefs and practices for women's health
- Acquire self-knowledge with regard to promoting wellness and making health-related decisions.
- Analyze expressions of women's sexualities and relationships.
- Establish foundational knowledge regarding reproductive choices and concerns.
- Increase awareness about the social construction and politics of women's health.
- Integrate traditional and alternative health care ideas and practices as resources for health information.
- Develop an understanding of factors affecting women's health in a global context

Required Textbooks

What you need to know about taking Women's Studies 397

1. In light of the high value we place on your engagement in class, we discourage all unnecessary absences. Please contact us regarding documented absences and emergency situations.
2. We invite you to visit our office hours. Please be in touch with any questions and thoughts you may have about our work together. You may also contact us by email, melhm01@moravian.edu or haddad@moravian.edu.
3. Please support a culture of discussion: turn off your phone, do not bring food to class, learn the names of other students, engage others intellectually, and take responsibility for the quality of our collective work.
4. All assignments will be discussed at least two weeks in advance of a given due date. You cannot pass this class without completing all assignments.
5. We do not accept late assignments. Please contact us in case of illness or emergency.
6. Plagiarism will result in failure of the particular assignment. Please see Moravian College Student Handbook for an account of academic honesty. See <http://moravian.edu/studentlife/handbook/academic2.htm>
7. Students with a documented learning disability who desire accommodations for this course must first visit the Office of Learning Services (Extension 1510) and follow College procedures on receiving accommodations.

Methods of Evaluation

Requirement	Date	Description	%/total grade

Course Requirements

I. Engagement Rubric (25%)

Student engagement in class discussions will be graded according to the following rubric:

- A. Critical, innovative and careful reading of all assignments; substantial notes or written preparation for discussion; frequent text-based contributions; contribution of discussion-shaping questions; careful engagement of the arguments of others; support of positive discussion dynamics.
- B. Complete and careful readings; consistent notes or written preparation for discussion; lively, substantial, and argumentative text-based contributions; contribution of independent questions; engagement of the arguments of others.
- C. Incomplete or superficial readings; minimal notes or written preparation for discussion; regular (at least once per meeting) discussion participation.
- D. Incomplete or missing readings; lack of notes or written preparation for discussion; mostly passive presence.
- F. Persistent, vegetative state; low-level trance; slightly elevated body temperature.

II. Presentation (15%)

Students schedule themselves for presentations during the course and will facilitate group discussions based on readings and other related resources. The grade for the presentation will be based on the quality and completeness of the session outline, as well as how effectively students facilitate discussion.

III. Research Paper Proposal (10%)

The Research Paper Proposal is due Sept. 19th. It is to be submitted using the form provided. The proposal should be no longer than 2 pages, single-spaced, and typed.

IV. Midterm (20%)

The midterm exam will include essays as well as objective test items (multiple choice, fill in, matching, etc.) The exam will be given during class time on October 2nd.

V. Research Paper Draft (NG) Final Research Paper (20%)

The research paper is an analysis of an issue in women's health with critique of the literature from health and social sciences. The paper should include an introduction, research discussion, conclusion, and reference page. The final research paper is due Dec. 12th.

A. Introduction

- Provide an overview of the selected topic in women's health
- Discuss why you chose this area of study
- Describe its significance for women and society
- Outline intended approach to study of topic
- State clearly the research problem/thesis to be addressed

B. Review of Literature

- Discuss research findings from relevant literature
- Analyze at least 2 articles from health care or nursing journals and 2 from social science literature
- Include at least 1 additional article from each area in the final paper

C. Conclusion

- Critique the research findings from a feminist perspective
- Compare/contrast research from health and social/political sciences
- Describe personal insights gained through analysis of topic
- Consider policies that will enhance/improve women's well-being
- Recommend how to integrate knowledge into personal and political actions

VI. Research Presentation on Blackboard (10%)

Each student will post a summary of research findings and relevant implications on the topic selected for the research paper. This research presentation will be posted on the Discussion Board section at the course web site: <http://blackboard.moravian.edu>. Entries should be substantive and provide information that is important from personal and sociopolitical perspectives (due Nov. 14).

After reading all presentations by classmates, students will reply to at least one other student's entry (due Nov. 21). The reply should provide information that confirms, refutes, and/or contributes to the women's health topic.

Women's Studies 397/Interdisciplinary Studies 397:

Instructions for Student Presenters

In advance...

1. Read the text carefully. Take notes.
2. Step back and consider the issues and questions that stand out to you.
3. Select three passages of the text that you find most interesting.
4. When presenting as a team, coordinate your questions and passages as well as your facilitation of the discussion.

Writing the outline...

1. Each student should prepare a separate outline.
2. Formulate three questions for the group discussion of the reading.
3. Prepare an outline: question/passage, question/passage, question/passage. You may also choose to include a brief introductory paragraph.
4. Your outline should include all appropriate information such as your name, the date, the course name, the author's name and the title of the text.

On the day before class...

1. On the day before the discussion, send the outline to the instructors by attachment. The outline must be received by 1 p.m. on the day before class.

lorihoffman@moravian.edu and haddad@moravian.edu

2. One or both of the instructors will respond by 6 p.m. on the day before class.
3. Consider the comments and revision instructions you may receive.
4. Revise and finalize your outline.
5. Bring copies of your outline to class for each student and the instructors.

In class...

1. Be prepared to open the discussion with brief opening comments.
2. Provide the group with an interesting, attractive handout that will allow everyone to participate and also to recall the discussion and the text later on in the semester.
3. Please note that there will not always be time to address every question. What's important is to prepare a good discussion that will engage members of the class in the topic.

Please note:

- Please feel free to contact us with any questions you may have.
- The presentation is a required assignment.
- Outlines must be received on time. As this is an exercise in co-teaching, you must consult with the instructors in order to be able to present in class.
- Please do not miss your assigned presentation date. We are tightly scheduled and have very limited flexibility to reschedule missed presentations.
