A true teacher never thinks his or her education is complete, but is always seeking to add to his or her knowledge. The moment a persons ceases to be a systematic student he or she ceases to be an effective teacher.

J.G. Fitch (Common Sense Didactics, Sabin, 1904)

Goals

- 1) provide a framework for understanding the history of public education in the US
- 2) begin the process of becoming a “reflective teacher”
- 3) develop a personal philosophy or vision for teaching
- 4) begin to develop the skills necessary for the analysis of educational issues and research
- 5) gain a basic understanding of school governance, law, and leadership as it relates to the philosophy of education
- 6) observe and reflect on real learning communities through a field experience

Required Texts

- 1) Tozer, Violas, & Senese, (1998) School and society 5th ed., McGraw Hill
- 2) Fenstermacher and Soltis, (1998) Approaches to teaching, 5th ed., Columbia University

Attendance

This course requires informed participation in the discussions so you are expected to attend every class with a basic understanding of the assigned readings, and topics to be discussed in class. If you must be absent please try to inform me before the missed class. Missing more than three classes presents serious concerns about your ability to succeed in this course.

Absence is not an excuse for missed work. If you cannot turn in work in a timely manner you should discuss this with me. Late work can be accepted depending on the situation.

Academic Honesty

The College has a clear position on academic honesty. Written work must be the product of your own thought and effort. If the work of others is quoted or paraphrased in your papers cite those sources with a standard (APA) citation (preferred) or MLA bibliographic notation. Ideas gleaned from discussions with others do not constitute plagiarism. Direct quotations from “experts” should be cited in standard reference fashion.

If a completed assignment is found to be plagiarized or dishonest, a grade of zero will be entered for that assignment and the Academic Dean will be notified in accordance with College policy. If you have any questions as to how to handle the materials of others’ please contact me.

Field Experience

This course requires a field experience. You will be going into the schools approximately four hours per week. This is a unique opportunity to see first hand what goes on in local schools and will allow you to make connections with your class work and the life of experienced educators. Pennsylvania now requires that you have the necessary clearances to work with students. More information on this topic will be provided during the first day of class. Successful completion of the field experience and a journal make up a portion of your grade.
