

**Moravian College**  
Biology Department  
Anatomy and Physiology - BIO 104  
Spring 2011

Instructor: Dr. Cecilia M. Fox  
Phone - 610-861-1426  
E-mail - [cfox@moravian.edu](mailto:cfox@moravian.edu)  
Office: Collier Room 304  
Office Hours: M 11:30am-1:00pm, T 12:30pm-2:30pm, R 10:30am-11:30am  
and by appt.

Lecture: Monday, Wednesday and Friday 8:55am-9:45am  
Collier 204 – Dana Lecture Hall

Lab: 2 sections: Wednesday or Friday 1:15-4:15pm  
Collier Hall of Science Room 303

Prerequisites: BIO 103 or by permission of instructor

Textbook: Seeley's Principles of Anatomy and Physiology  
by Philip Tate  
McGraw Hill

Lab Manual: Laboratory Manual for Seeley's Principles of Anatomy and Physiology  
by Eric Wise  
McGraw Hill

Lecture Notes: Supplemental notes and PowerPoint presentations will be posted on  
Blackboard

Dissecting Kits and  
Safety Goggles: Available in the Bookstore

Course Description: Biology 104 is part two of the Anatomy and Physiology course. This course offers an in depth study of the anatomy and physiology of human endocrine, digestive, respiratory, circulatory, immune, urinary and reproductive systems. Laboratory includes organ and whole animal dissections and evaluation of physiological processes.

Course Objectives: Upon completion of this course, the student will be able to:

- a) understand the anatomy of the endocrine, digestive, respiratory, circulatory, immune, urinary and reproductive systems of the human body
- b) comprehend the relationships between structure and function within each system
- c) recognize the interrelationships among the varied systems
- d) understand the physiological mechanisms behind the human body's response to normal and stressed situations
- e) appreciate the complexity of living organisms through dissection of cats and selected organs of other mammals

Grading: The grading system is as follows: (+/- will be administered as the professor deems appropriate)

A = 90 - 100

B = 80 - 89

C = 70 - 79

D = 60 - 69

Your final grade will be based on the following criteria:

Three lecture exams: 100 points each = 300 points

Three lab exams: 100 points each = 300 points

Ten lecture quizzes: 10 points each = 100 points

Two case studies: 50 points each = 100 points

Final lecture exam: 200 points

Class participation and preparation: 100 points  
1100 points

\*\* Both lecture material and textbook readings are fair game for lecture exams.

\*\* The final lecture exam is cumulative.

\*\* Case study assignments will be discussed as the course progresses.

\*\* Please note: it is within the instructor's purview to apply qualitative judgment in determining grades for an assignment or the entire course

Expectations:

- a) Attendance: Regular lecture and lab attendance is expected. Please be on time! **No** make-up exams will be given unless you have an acceptable reason (family emergency, illness, etc). If an emergency should arise, you must notify me prior to the exam and **not** after. If you plan to miss a lab please notify me in advance. Students are allowed a maximum of three absences in lecture and one absence in lab within this semester. If you miss class or lab more than the allowed times, 50 points will be deducted from your lecture participation grade. Another 10 points will be deducted from your lecture participation grade for each additional absence. **Please be aware that absences are not divided into excused and unexcused. Regardless of the reason, an absence from class is counted as an absence.**
- a) Cheating: will not be tolerated. Students will be held to the highest standards as specified by the Moravian College Honor Code. Violations of this code will be handled in the most severe manner allowed by college policy.
- b) Reading Assignments: should be completed prior to lecture as well as lab.
- c) Lecture Quizzes: A quiz covering the week's material will be given on Fridays. **Make-up quizzes are not offered.**
- d) Lab Preparation: You are expected to come to lab prepared for that day's exercise. For each lab session, be sure to bring your: textbook, lab manual, lecture notes and dissection kit.
- e) Cell Phones and Pagers: Please turn them off (or at the very least, set on vibrate) before walking into the lecture hall and laboratory. **As a courtesy to your professor, do not type text messages during lecture and lab!**
- f) Accommodations: Students who wish to request accommodations in this class for a disability should contact Mr. Joe Kempfer, Assistant Director of Learning Services for Disability Support, 1307 Main Street (extension 1510). Accommodations cannot be provided until authorization is received from the office of Learning Services.

g) Extra Help: If difficulties interpreting lecture or lab material arise, please contact Learning Services for a tutor ASAP. I will also be more than happy to help!!

### Lecture Schedule

<u>Week of:</u>	<u>Topic</u>	<u>Reading Assignment</u>
January 17	Introduction Endocrine System - Hormones	Chapter 1 Chapter 15
January 24	Endocrine System - Pituitary Gland, Thyroid Gland, Adrenal, Pancreas, etc	
January 31	Circulatory System - Blood	Chapter 16
<b>February 2</b>	<b>Exam 1</b>	
February 7	Circulatory System – Heart, Cardiac Cycle	Chapter 17
February 14	Circulatory System - Blood Vessels, Blood Pressure	Chapter 18
February 21	Immune (Lymphatic) System	Chapter 19
<b>February 23</b>	<b>Exam 2</b>	
February 28, March 14	Respiratory System Breathing Mech., Control of Breathing, Gas Exchange	Chapter 20
<b>March 7-11</b>	<b>Spring Break</b>	
March 14,21	Digestive System Nutrition	Chapter 21 Chapter 22
March 28	Urinary System - Kidneys / Nephron, Urine Formation	Chapter 23
<b>March 30</b>	<b>Exam 3</b>	
April 4	Urinary System – Elimination of Urine	
April 11	Reproductive System – Male and Female	Chapter 24
April 18	Reproductive System – Female (con't)	Chapter 24
<b>April 22-25</b>	<b>Easter Recess</b>	

April 25

Pregnancy, Birth Control

Chapter 25

**May 3  
(8:30am)**

**Cumulative Final Exam**

### **Laboratory Schedule**

Week of:

Topic

Laboratory Exercise

January 17

Introduction  
Homeostasis Exercise

Exercise provided in lab  
Exercise 34

January 24

Endocrine System  
Physio Ex. Activity

Exercise 24  
Activity provided in lab

January 31

Circulatory System - Blood

Exercise 25, 26

**February 7**

**Lab Exam 1**

February 14

Circulatory System - Heart  
Physio Ex. Activity

Exercise 27

February 21

Circulatory System – Blood Vessels  
Cat Dissection

Exercise 30

February 28

Immune System  
Lab Practical Review

Exercise 33

**March 7**

**Spring Break**

**March 14**

**Lab Exam 2**

March 21

Respiratory System  
Respiratory Volumes

Exercises 35, 36

March 28

Digestion – Chemical and Physical  
Properties/ Nutrition  
Cat Dissection

Exercise 38  
Exercise provided in lab

April 4

Urinary System – Anatomy and  
Urinalysis

Exercises 40, 41

April 11

Anatomy of Reproductive System  
Sexually Transmitted Diseases

Exercises 42,43

**April 18**

**No Lab – Easter Holiday**

**April 25**

**Lab Practical 3**

\*\* As the professor of this course, I reserve the right to alter this syllabus at any time during the semester. \*\*
