Course Description;

The process of critical thinking as a basis for open inquiry into assumptions, beliefs, and values about the discipline of nursing will be analyzed for nursing in a dynamic, multidisciplinary health care environment. Professional, historical, and socio-cultural issues, as well as ethical and legal standards, will be discussed within the context of health care challenges of the 21st century.

Objectives:

1. Describe the evolution of professional nursing, nursing process and nursing theory.
2. Examine socio-cultural perspectives of health and health promotion.
3. Explain the process of inquiry and critical thinking in making decisions for evidence-based nursing care.
4. Explore nursing's role in promoting safe and quality care within a changing health care environment.
5. Develop an understanding of accountability as a member of the multidisciplinary health care team.
6. Recognize the importance of performance standards for professional and ethical practice.

This course provides an introduction to the process of knowledge acquisition in relation to nursing and health care concepts. The focus is on developing students' intellectual capabilities as independent thinkers. Critical thinking is a basis for open inquiry into assumptions, beliefs and values about one's self in relation to human caring, nursing, and health care. Students will utilize a variety of active learning strategies to explore concepts and issues related to nursing and health care.

...and what does this really mean?

When you “think” about it, most of the thinking that we have developed has occurred rather effortlessly. There are many factors that have affected how we think; some of which are from word of mouth as occurs in the family setting, others are from television, movies, or the popular press. Learning to think critically involves the practice of skills consciously and deliberately in order to take charge of your thinking. The class will focus on processes used in critical inquiry; therefore, there will be little lecture. Nursing and health care issues will be utilized as a focus for developing critical analysis thinking skills.

Course Requirements;

1. Class attendance is required. Students are expected to be prepared for all class meetings; that means having completed assignments prior to attending class. If unable to attend a class, please contact the instructor at least one hour before class via email or office phone. Arriving late to class is a distraction for others. Beginning with the second late arrival a student will have 2 points deducted from the grade for each 5 minutes late. Holiday travel, routine medical appointment, and personal family vacations are not acceptable reasons to be absent from class or required learning activities. .Students are responsible for obtaining any notes, handouts, or other class items from classmates. Student’s absence on the day an assignment is due are expected to submit their work as due to the instructor electronically. Experiencing printer issues is an unacceptable reason for a late paper.

2. Use of a computer, basic PC literacy, and Internet access are required.
3. A Course Blackboard is used for supplemental instruction in this course. Students are responsible for checking the blackboard every 2 days for announcements and information posted there. Students experiencing difficulty with accessing the College network are accountable for seeking resolution from the CIT Help Desk within 24-48 hours of the problem.
4. A student is required to complete a course evaluation (electronically online) before the last class meeting day of the term. This is an anonymous system required by the College in all courses. Failure to submit the course evaluation data will result in the instructor withholding the student's final course grade posting.

Alternative Learning Programs

In the case of unavoidable class absence due to pre-approved events and/or personal acute illness, a list of alternative learning options will be provided. Please notify the instructor in advance in the event a substitute assignment is indicated which will be subject to approval by the Instructor. A maximum of 2 substitutes for acceptable reasons may be made and each will require a written assignment report due at the following class session.

Course General Information

1. Students are expected to maintain an electronic copy of all written work for replacement in case of lost papers. Such loss is unavoidable due to volume of papers being submitted in a semester.
2. The course topical outline serves as a general guide and is subject to change with classroom or email notification to students. There are three sections of NURS 115 and each may be run by the Instructor in a different manner, content, or schedule. Be aware of this fact when you are exchanging information with other students who may be in a different section of the course.
3. Plagiarism is the intentional use of another's words or ideas as your own. This can range from using another individual's direct words or changing the words slightly (paraphrasing) without the appropriate citation to purchasing a paper from the Internet or a professional writing service. APA format is required for all written assignments.
4. Students are encouraged to participate in the full range of the college community programs, events, and sports. These events are routinely scheduled to begin at 4:00 PM; therefore, students should not request to leave class early to participate in extra curricula events.
5. Instructor absence – In the event of acute illness of the instructor, a substitute teacher will cover the class. Should a class session need to be cancelled it will be announced on the course blackboard or posted on the classroom door. Every attempt will be made to notify the student in advance.
6. Learning activities stated on the topical outline section of this syllabus are to be completed prior to class time. The student can expect to work approximately 6-8 hours per week in preparing for this class.
7. Disability accommodations under the Americans with Disabilities Act (ADA) cannot be provided until authorization is received from the Office of Learning Services. Students who wish to request accommodations in this class should contact Joseph Kempfer, Assistant Director of Learning Services for Disability Support, in the Learning Services

- office, 610-861-1510).
8. Communication between instructor & student can be facilitated through the use of email. Students are expected to check their email every day or two. The instructor does not check emails after 6:00 PM or before 6:00 AM.
 9. College policy will be followed relative to inclement weather. Please check the College web-site or call (610) 625-7995 for any announcements relative to weather and the cancellation of class.
 10. Nursing students are held accountable for the Nursing Department policy stated in the School of Nursing Student Handbook 2011- 2012. The handbook may be found on the P drive of the college at <http://home.moravian.edu/public/Nursing/UndergradHandbook.html> . The student will be required to sign a statement that this information was announced to them as part of this course content.
