Course Description

In this course the emphasis will be on the process and not the product. Students will learn how to guide young children in creatively expressing themselves in the arts: visual, dance, movement, and drama. Students will also learn how to extend the arts into homes and families. National standards will also be addressed. (Note: In combination with Education 214.2, this course fulfills the Learning in Common M6 requirement.) Prerequisites: QPA of 2.70, Education 100.2, or 160.

The course introduces pre-service educators who are earning their teaching certification in early childhood education, to the origin and development of creativity and imagination in children. Through analysis of readings combined with studio activities that focus on exploration of materials, students come to understand the purpose of art instruction in early childhood education settings. A culminating project is an interdisciplinary art lesson that supports and challenges children's artistic development. Focus is on instructional strategies for diverse learners, such as ELL's and children with disabilities.

Students who wish to request accommodations in this class for a disability should contact Elaine Mara, assistant director of learning services for academic and disability support at 1307 Main Street, or by calling 610-861-1510. Accommodations cannot be provided until authorization is received from the Academic Support Center.

Academic Honesty

Institutional expectations and the consequences of failure to meet those expectations are outlined in the Moravian College Student Handbook 2011-2012 found online at:

http://www.moravian.edu/studentLife/handbook/academic/academic2.html

Plagiarism

If an instructor suspects plagiarism or any other form of academic dishonesty, the student will be asked to show the notes and drafts contributing to the final version of a paper. The instructor also has the right to review any books or periodicals that were used. The grade for the paper will be suspended until these materials have been reviewed. An instructor who suspects a student of violating the policy on academic honesty with regard to an assignment, requirement, examination, test, or quiz will consult with the Department Chair and Academic Dean using a blind copy of the work in question, to verify the violation. If the charge is verified, the instructor will, in almost all cases, assign either a grade of zero to the academic work in question or a failing grade in the course in which the violation occurred. The student must be informed in writing of the alleged violation and penalty; a copy of this memo must be sent to the Associate Dean of Academic Affairs. A student may appeal either a charge of academic dishonesty or a penalty as follows: First, to the course instructor. Next, in the case of a First Year Seminar, to the Chair, First Year Seminar. Next, to the Academic Standards Committee, chaired by the Associate Dean for Academic Affairs.

Attention Education Majors: All violations of academic honesty reported to the Dean are shared with the Teacher Education Committee at the time the candidate's application for student teaching is being considered. In the past, such violations have prevented the Committee from approving some candidates for student teaching.

Moravian College Student Chapter of the National Art Education Association (NAEA)

Art Department Mission Statement

The Moravian College Art Department cultivates a vibrant academic community committed to creative and critical thinking. Our faculty and students share a passion for art as a celebration of the mind's imaginative and intellectual powers. Art is by nature an interdisciplinary and trans-cultural field that invites students to consider how art reflects and shapes society, politics, ethics, and culture. At Moravian College, art-making is a form of meaning-making that relies on invention, research, and an infinitely curious mind to construct new knowledge, foster self-expression, and explore visual communication. Students are given the opportunity to unleash their creativity through dynamic projects that embrace risk-taking, problem-solving, revision, and self-reflection.

Working at the forefront of new approaches to teaching, learning, and technology, the Art Department is grounded in strong traditional foundations. Our program lays the ground-work for students to integrate and appreciate art throughout their lives, encouraging leadership in their fields and within the global community. Under the mentorship of our outstanding faculty, our students are provided with a strong, personalized academic major, combined with innovative hands-on learning experiences and opportunities for community engagement and collaboration. The Art Department is committed to providing professional opportunities through our internships; in-house graphic design studio; student teaching; on- and off- campus student exhibitions; visiting guest lectures; study abroad experiences; student-run organizations; and participation in conferences, workshops and presentations.

"I'm an artist" movie

I'm an Artist tells the story of the often hidden children of our times-students with learning disabilities. In this heartwarming documentary young adults with Down syndrome, autism, and behavior issues collaborate with a dedicated teacher to create artwork for their first professional gallery exhibition. As the students draw, color, and paint we witness how these children, who often struggle in life every day, gain confidence and self-acceptance through artistic expression. http://www.imanartistmovie.com/
