**Catalog/Course Description:** A clinical practicum course, which provides a foundation to facilitate community partnerships and collaboration in promoting health and accessing care. Students experience nursing role behaviors in a multiplicity of health care situations within the community.

**PROGRAM PHILOSOPHY**: The process of learning involves accountability, diversity, mutual respect, openness, honesty, and a reality base. The core components for the curriculum are Community, Holism, Inquiry, & Professionalism (CHIP). These core components provide the foundation for the program and learning outcomes and are detailed in the *Student Handbook*.

(http://home.moravian.edu/public/Nursing/HandbooksPage.html)

#### **Course Objectives:**

- 1. Identify professional nurse roles, including practitioner, educator, coordinator, advocate, and counselor, within the community.
- 2. Examine phenomena within local and regional community populations, which directly influence health practices, health services, and health care policies.
- 3. Integrate concepts from biological, psychological, socioeconomic, and nursing disciplines in planning and delivering safe, quality care to diverse populations across the lifespan within the community.
- 4. Apply Gordon's Functional Health Patterns in assessment of the community.
- 5. Evaluate the utilization of the professional nurse in community services.

6. Integrate current evidence-based community/public health strategies when providing community nursing care.

**Course credits/Unit Hours:** 1 Course Unit (3 theory hours and 8 clinical hours) **Prerequisites:** All required sciences, NURS 115, 212, 310, 311, 312, Pharm 1 **Co-requisites:** NURS 339, 332.2

# **Required texts:**

- Assessment Technologies Institute (ATI) Products: Community Health-specialty, Adult Medical Surgical Nursing, Mental Health, and Pharmacology for Nursing.
- Ball, J.W., Bindler, R.C., & Cowen, K.J. (2012). Principles of pediatric nursing: caring for children. (5<sup>th</sup> ed.). Boston: Pearson.
- Boyd, M.A. (2012) *Psychiatric nursing: Contemporary practice*. 5th ed. New York: Lippincott, Williams, & Wilkins.
- Davidson, M. R., London, M.L. & Ladewig, P. A. (2012). *Old's maternal-newborn nursing & women's health*. (9<sup>th</sup> ed.). Boston: Pearson.
- Jarvis, C. (2011). *Physical examination and health assessment* (6<sup>th</sup> ed.). St. Louis: Elsevier Saunders.
- Karch, A.M. (2013) *Focus on nursing pharmacology* (6<sup>th</sup> ed.) Philadelphia: Wolters Kluwer/Lippincott Williams & Wilkins.
- Potter, P.A., & Perry, A.G. (2012). *Fundamentals of nursing* (8<sup>th</sup> ed.). St. Louis: Mosby.
- Smeltzer, S.C., Bare, B. G., Hinkle, J. L., & Cheever, K. H. (2010). Brunner and Suddarth's textbook of medical- surgical nursing (12<sup>th</sup> ed.). Philadelphia: Lippincott, Williams, & Wilkins.
- Stanhope, M. & Lancaster, J. (2014). *Foundations of nursing in the community.* (4th ed.). St. Louis: Elsevier Mosby.

# Course Requirements: 1. Nursing Department Attendance Policy

Classroom attendance is necessary to promote the learning of the theoretical component of the curriculum and to enrich and expand the application of the clinical learning process. Students are expected to attend all classroom activities. An instructor may lower a student's grade because of a class absence. If absences occur, it is the student's responsibility to make up whatever work has been missed. Permission to make up assignments, quizzes, and periodic tests may be granted at the discretion of the instructor. Authorization to make up a final examination is given only by the Office of Academic Affairs.

Clinical attendance is mandatory for the student to consistently demonstrate the ability to meet course objectives. It is the student's responsibility to notify the appropriate person(s) as identified by course faculty in the event that he/she is unable to attend clinical experiences. Such notification is to occur up to two hours prior to the scheduled clinical experience. If a student is absent from class/clinical activity due to illness, a

health care provider's statement verifying the illness and certifying that the student is able to resume class or clinical activity may be required.

All clinical absences will be tracked in a database for review by future course instructors and the Chairperson of the Department of Nursing. Students who request time off from clinical, due to events in which they have no control (death of a family member), will contact the course faculty and the clinical instructor, and the determination for clinical makeup will be decided. Students who arrive to clinical practice late or leave early may be required to make up those cumulative minutes at the end of the semester on a clinical makeup day. It is up to the discretion of the course faculty to require clinical makeup for students who routinely leave clinical early due to co-curricular activities. For student involved in co-curricular activities such as sports or music, etc. schedules must be submitted to clinical faculty at the beginning of the semester so that clinical experiences can be appropriately determined.

Students will be required to makeup clinical absences. <u>The designated clinical makeup</u> day is Saturday, April 26. It is mandatory that students requiring clinical makeup attend this day. This is a reading day, please plan your schedules accordingly. Students will be charged \$250.00 per day of clinical make-up to reimburse the department for clinical supervision and administrative fees. All clinical requirements, including make-up, must be completed by the end of the final examination period for that semester. Any associated fees must be paid in full by the end of the final examination period for that semester. Students are exempt from clinical make-up if they are attending a faculty approved conference (i.e.-NSNA or SNAP convention). In the event that a student receives an excused absence for a required educational trip and later in the semester incurs more clinical absences, the student may be in a position to consider withdrawal from the course, if the clinical experiences absences are too numerous to be made up within the available faculty contract time.

In the event of a protracted illness requiring multiple missed clinical days, the student, course instructor(s), and Chairperson will meet to discuss alternatives and develop an individual education plan.

**2.** NU **314** Class Attendance. Students are expected to be prepared and attend and participate in all class meetings. This includes completing assignments prior to attending class. Tardiness is a distraction to the class and will not be tolerated. Attendance and participation will be assessed daily and will be reflected in the percentage of the grade assigned to Quizzes/Iclicker/participation.

**If unable to attend a class**, please contact the course faculty via email or phone. Students are responsible for providing a doctor/nurse practitioner/health center excuse for an excused absence. Students are responsible for obtaining any notes, handouts, or other class items from classmates.

**3. Plagiarism** is the intentional use of another's words or ideas as your own. This can range from using another individual's direct words or changing the words slightly

(paraphrasing) without the appropriate citation to purchasing a paper from the Internet or a professional writing service. Refer to the Moravian College Academic Honesty Policy in the Student Handbook. Where applicable, class assignments are to be typed and submitted according to APA style (6<sup>th</sup> edition).

**4.** Accommodations for learning and other disabilities: Students who wish to request accommodations in this class for a disability should contact Elaine Mara, assistant director of learning services for academic and disability support at 1307 Main Street, or by calling 610-861-1510. Accommodations cannot be provided until authorization is received from the Academic Support Center. Students who wish to request accommodations for support of other disabilities should contact Dr. Ron Kline, Director of the Counseling Center (ext. 1510).

**5.** All examinations are to be taken at the scheduled time, unless the instructor is notified of a competing previously scheduled scholastic or athletic activity. Any individual who is not at the scheduled examination based on a claim of illness is required to provide appropriate medical documentation of a valid medical reason for absence. The instructor retains the right to use an alternate examination format for exam makeup.

**6.** Completion and satisfactory achievement of all course objectives includes satisfactory laboratory and clinical performance.

**7. Learning activities** stated on the topical outline section of this syllabus are to be completed prior to class time. The student can expect to work approximately 10-12 hours per week in preparing for this class.

**8. Demonstrate expected professional behavior and appearance** when in the classroom and clinical laboratory (both uniform and street clothing).

**9. Maintenance of confidentiality** for all assigned patients or clients as required by law (HIPAA). Students will be required to read and know agency policies on confidentiality and may be required to sign agency forms on confidentiality.

**10.** Students are reminded of the importance of respect and courtesy toward others. As a courtesy to your colleagues, phones must be in the silent mode during class. Texting or use of cell phones for internet access during class is unacceptable. Students are expected to be respectful of the time of both faculty and their peer group. Thus, if you are unable to keep an appointment with a faculty member or student peer related to course work/group projects, please be courteous and notify others of your need to cancel or reschedule the appointment.

# **Methods of Evaluation:**

1.	NU 314 Paper	15%
2.	Community assessment group project	5%
3.	Quizzes/Iclicker/Participation	10%
4.	Exam # 1	15%
5.	Exam # 2	20%
6.	Exam # 3	20%
8.	Exam #4/Final Exam	15%

# **Grading Policy:**

Assignments are expected on or before their due date both for class and clinical. If class assignments are submitted late, five points per day will be deducted from the grade. If clinical assignments are submitted late, N/O (unable to assess) is earned for the related clinical day. The grading scale is as follows:

A = 93-100	B- = 80-82	D + = 67-69
A = 90-92	C+ = 77-79	D = 60-66
B + = 87 - 89	C = 73-76	D- = 60-62
B = 83-86	C- = 70-72	F <59

It is within the instructors' purview to apply qualitative judgment in determining the grades for an assignment or for a course.

#### NU 314: COURSE TOPICAL OUTLINE

The course instructor reserves the right to assign additional readings, alter course content and/or course sequence as needed. It is the student's responsibility to check email and Blackboard on a daily basis during the semester.

Please bring your textbook and Iclicker to class each day. Presentations may be printed out at student's discretion, consider using electronic copies and bring laptop to class.

DATE	TOPIC	ASSIGNMENT
