

Spring 2016 FINAL

EDUC 218.2 Wellness, Movement & Health for Young Children – Spring 2016

Meets: Fridays, 11:45 AM –12:55 PM Meets in Johnston Hall (Jan 22), SAAL-Bahnson Center/Seminary (Jan 29-Mar 4), PPHAC 302 (Mar 18-Apr29)

Faculty: Dawn Ketterman-Benner, MS, PPHAC, Room: 319 <u>Ketterman-bennerd@moravian.edu</u> Janet A. Sipple, EdD, RN, Hamilton Hall 100, 610 865-2003 <u>sipplej@moravian.edu</u> Office Hours: Instructor announcement

EDUC 218.2 in a half unit course. This course is designed to inform future	Students in
early childhood teachers, as movement educators, about the discipline of	EDUC 218.2
physical education and the role they can play in producing physically active	must have a
and healthy, safe children. Specific attention will be given to motor skill	minimum
and movement concepts and strategies, techniques, and approaches that	grade point
teachers can use to lay the foundation for all healthy practices in children.	average of
Prerequisite: EDU 100 or EDU 160.	2.7

Expected Student Learning Outcomes:

- 1. Students will be able to articulate priorities for high quality, meaningful physical activity and its relationship to learning, self-confidence and enjoyment. (PECT 0014: 1-7)
- 2. Students will be able to develop an understanding of the priorities for physical education related to PA learning standards. (PECT 0014: 1-7)
- 3. Students will develop principles of health, safety and nutrition related to the learning environment. (PECT 0014:5, 7)
- 4. Students will develop an awareness of the concepts of making healthy choices and preventing hazardous practices and environments. (PECT 0014: 1-7)
- 5. Students will develop strategies to foster parent and community partnerships. IV.D. (PECT 0002: 8; 0004:3)

LEARNING ACCOMMODATIONS:

Students who wish to request accommodations in this class for a disability should contact the learning and disability support service team at the first floor of Monocacy Hall or by calling 610-861-1401 Accommodations cannot be provided until authorization is received from the Academic Support Center.

OTHER INFORMATION:

Absence Notification: Attendance in class is very important. Should a personal emergency arise it is important that you notify the professor of this as soon as possible. This will assist the professor in the design of small group team projects. Missing any class without a phone call or e-mail prior to class time will significantly lower your overall grade. If you are ill, you must give a doctor's excuse for an excused absence. If you do not have an acceptable reason, your final grade will reflect it. Attendance is of critical importance in order for you to participate actively and gain knowledge for the assigned class.

Class Courtesy:

Food: Water/covered drinks are allowed.

<u>Cell Phones:</u> Turn them off. If an emergency exists, you can arrange with the professor before class. If your cell goes off or if you participate in texting during a class, this will be reflected in zero percent for the professionalism grade that day.

Expected Work Load – For this course, it is expected that you will work between 2- 4+ hours outside of class as preparation and completion of assignments for each class/course.

References and formatting = Use the <u>Publication of the American Psychological Association</u>, (Current edition)

for references and appropriate college level formatting. The font of your papers must be in Arial or Times Roman 12 font. You will be expected to provide accurate documentation and proper citations **for all** your written work.

<u>Plagiarism</u>: Review and understand the statement in the *Student Handbook and on Amos* <u>https://amos.moravian.edu/ICS/icsfs/Academic Honesty Policy.pdf?target=ebeb34f5-5765-4eb1-b699-</u> <u>ab980efb8622</u> Always cite your sources if the ideas are not original and/or reflect others research or publication. If you do plagiarize, you will be reported to the Dean and will receive a failing grade.

Grading:

$\overline{\mathbf{A}} = 94-100\%$ (A- = 90-93%)	Your work is definitely outstanding. It goes beyond requirements
	and shows perception and insightfulness
B = 84-86% (B- = 80-83%) (B+ = 87-89%)	You go beyond the requirements enhancing your work by adding
	additional resources, related areas or topics, etc.
C = 74-76% (C- = 70-73%) (C+ = 77-79%)	You meet all requirements adequately.

Check BlackBoard or instructor for each assignment information and/or rubric for more specific information. It is within the instructor's purview to apply qualitative judgment in determining grades for all of your assignments and your final grade for this course.

Late work:

Notify faculty via email prior to the due date of work, that it will be late. Also provide an <u>email explanation</u> regarding the cause of the lateness. The faculty will determine an appropriate new due date. the "Work" will be evaluated and lowered by only a half grade if handed in before the negotiated due date; if additional time is needed this must be negotiated, however, this will result in one grade lower than an on-time grade.

Written work requirements:

Written work requires that papers are computer generated and submitted via email to the professor. College level papers will reflect the use of spell check, appropriate grammar, appropriate documentation and coherent flow of information (organization and logic) for a grade. Students should keep a copy of their written work in the event of a technical problem.

Class Arrangements:

Class meets every week for a semester with the first half of the semester concentrating on physical fitness, movement, safety, & wellness and the second half on safety, health, and wellness. The class structure will vary according to the content of the class. There will be interactive small group assignments both in and outside of class. Students are expected to actively participate in class discussions and presentations (*note participation grade*). Some classes will require members to physically participate in demo lessons and/or other physical activities.

BlackBoard (BB) Technical Support:

The course syllabus, assignment information/rubrics and announcements will be provided via BlackBoard. Weekly assignments and new materials will be available on BB. The BB site will also provide some assignment reference materials. Students should consult BB <u>frequently</u> for additions and helpful information.

Professionalism:

Since this is a course to prepare students to think and act like professional educators, it is expected that students' attitudes and behaviors reflect those responsibilities. Attendance, punctuality, and coming prepared to learn, and collaborating with others are all professional behaviors. These behaviors are important to acquire and are needed for this course. Each person will need to be actively involved with class discussions (as class enrollment size permits), prepared to present to the whole class as assigned and remain engaged while others are presenting. Assignments and readings must be done prior to the class period in order to develop a community of learners. It is worth 10% of your total grade. Evaluation of professional behaviors will be judged by faculty based on direct observation of student behavior in all course activities.

Professionalism Scoring Rubric

	0	T	M ^C 1. 1 1	
Attendance	Arrives and leaves on time	Late or leaves early 1 time	Missed class, but called/emailed and	Misses more than one class and does
			had legal excuse; also submitted written work	not call/emailed or frequently arrives or leaves early
	50%	40%	30%	10%
Participation	Encourages others, strong participant, stays on topic, shares ideas, facilitates activities, mentors others, comes "over" prepared	Collaborates well with others, stays focused, is adequately prepared, actively participates, shares in group work	Participates when called on, supports group projects, comes to class not quite prepared on more than 2 times	Talks while others are talking, often not engaged in class discussion or group activities, comes to class not prepared on more than 3 times
	50%	40%	20%	10%

Required Textbook: None

Learning Assessment for the course grade will be determined as follows:

 20% Students will write and present a lesson plan (s) that can be used in providing positive, developmentally appropriate, and safe movement experiences for young children including diverse populations OR

Actively (1 hour per week) complete research engagement for the Reading & Riding Project at William Penn Elementary School under the supervision of the faculty Instructors. Weekly written reports will be required of each education student in this project

2. 20% Create a health education lesson plan for the "Read and Ride" program for young children.

- 3. 10% Professionalism (see rubric in this syllabus)
- 4. 28% Weekly written work sheets & written assignments
- 5. 22% Exams and quizzes

Weekly Schedule: NOTE: Subject to change with notice per faculty BB announcement
